“Call For Presentations”

The Newfoundland and Labrador Therapeutic Recreation Association Announces

**“Breaking Ground, Standing Tall”
Conference and AGM
October 5th –7th, 2009
Albatross Hotel, Gander, NL**

Preparations for the 2009 NLTRA conference and AGM are underway and the organizing committee is currently accepting presentation proposals. We would encourage anyone who is potentially interested in presenting to submit the enclosed presentation proposal form.

Based on evaluation of previous conferences, participants are interested in sessions focusing on Therapeutic Recreation Services in client population areas such as mental health and addictions, frail elderly/dementia care, palliative care and therapeutic recreation, and child life. Other topics of interest include advancement of the profession, new program ideas, assessment tools, research initiatives, and inspirational stories.

The theme “Breaking Ground, Standing Tall” should generate a wide selection of presentation ideas and we hope that you will take this opportunity to share your valued information with others.

Please contact me if you have any questions or need further assistance.

Looking forward to your continued support to the TR profession and the Newfoundland & Labrador Therapeutic Recreation Association.

Barry Penton
NLTRA President
